

Intersection at Wade and Main scheduled for four week closure

(Penticton BC – April 17, 2018) – As part of the construction work taking place along Main Street’s 300-block, motorists are advised that the intersection at Wade Ave. and Main St. will be closed from April 23 to May 20 as crews commence work to install sanitary sewers, electrical, water mains, traffic signals, pavers and concrete ramps.

“The City wishes to thank motorists, cyclists and pedestrians in advance for their patience while this next phase of the project is carried out”, said Design Supervisor, Tyler Figgitt.

To assist downtown patrons in accessing 400-block businesses, a temporary turn around route will be opened along the length of the block.

Transit Users:

During this same period, transit users are advised that the following bus stops will not be in service:

- For route #1 - The bus stop on Winnipeg St. just north of Wade Ave. and the stop on Wade Ave. between Martin St. & Main St.
- For route #3 – The bus stops west of Ellis St. on Nanaimo Ave., Winnipeg St. and Wade Ave.
- For route #10 & #15NR – The bus stop on Wade Ave. between Martin St. & Main St.
