

DUNCAN AVENUE CONSTRUCTION Information for Residents

As part of the next phase of construction on the Lake-to-Lake Bike Route, roadwork is set to begin on Duncan Avenue between Fairview Road and Main Street. Work will be underway from Sept. 6 to Oct. 31, 2022. Residents and shoppers will be affected by road closures. Timing is approximate.

Here's what you need to know

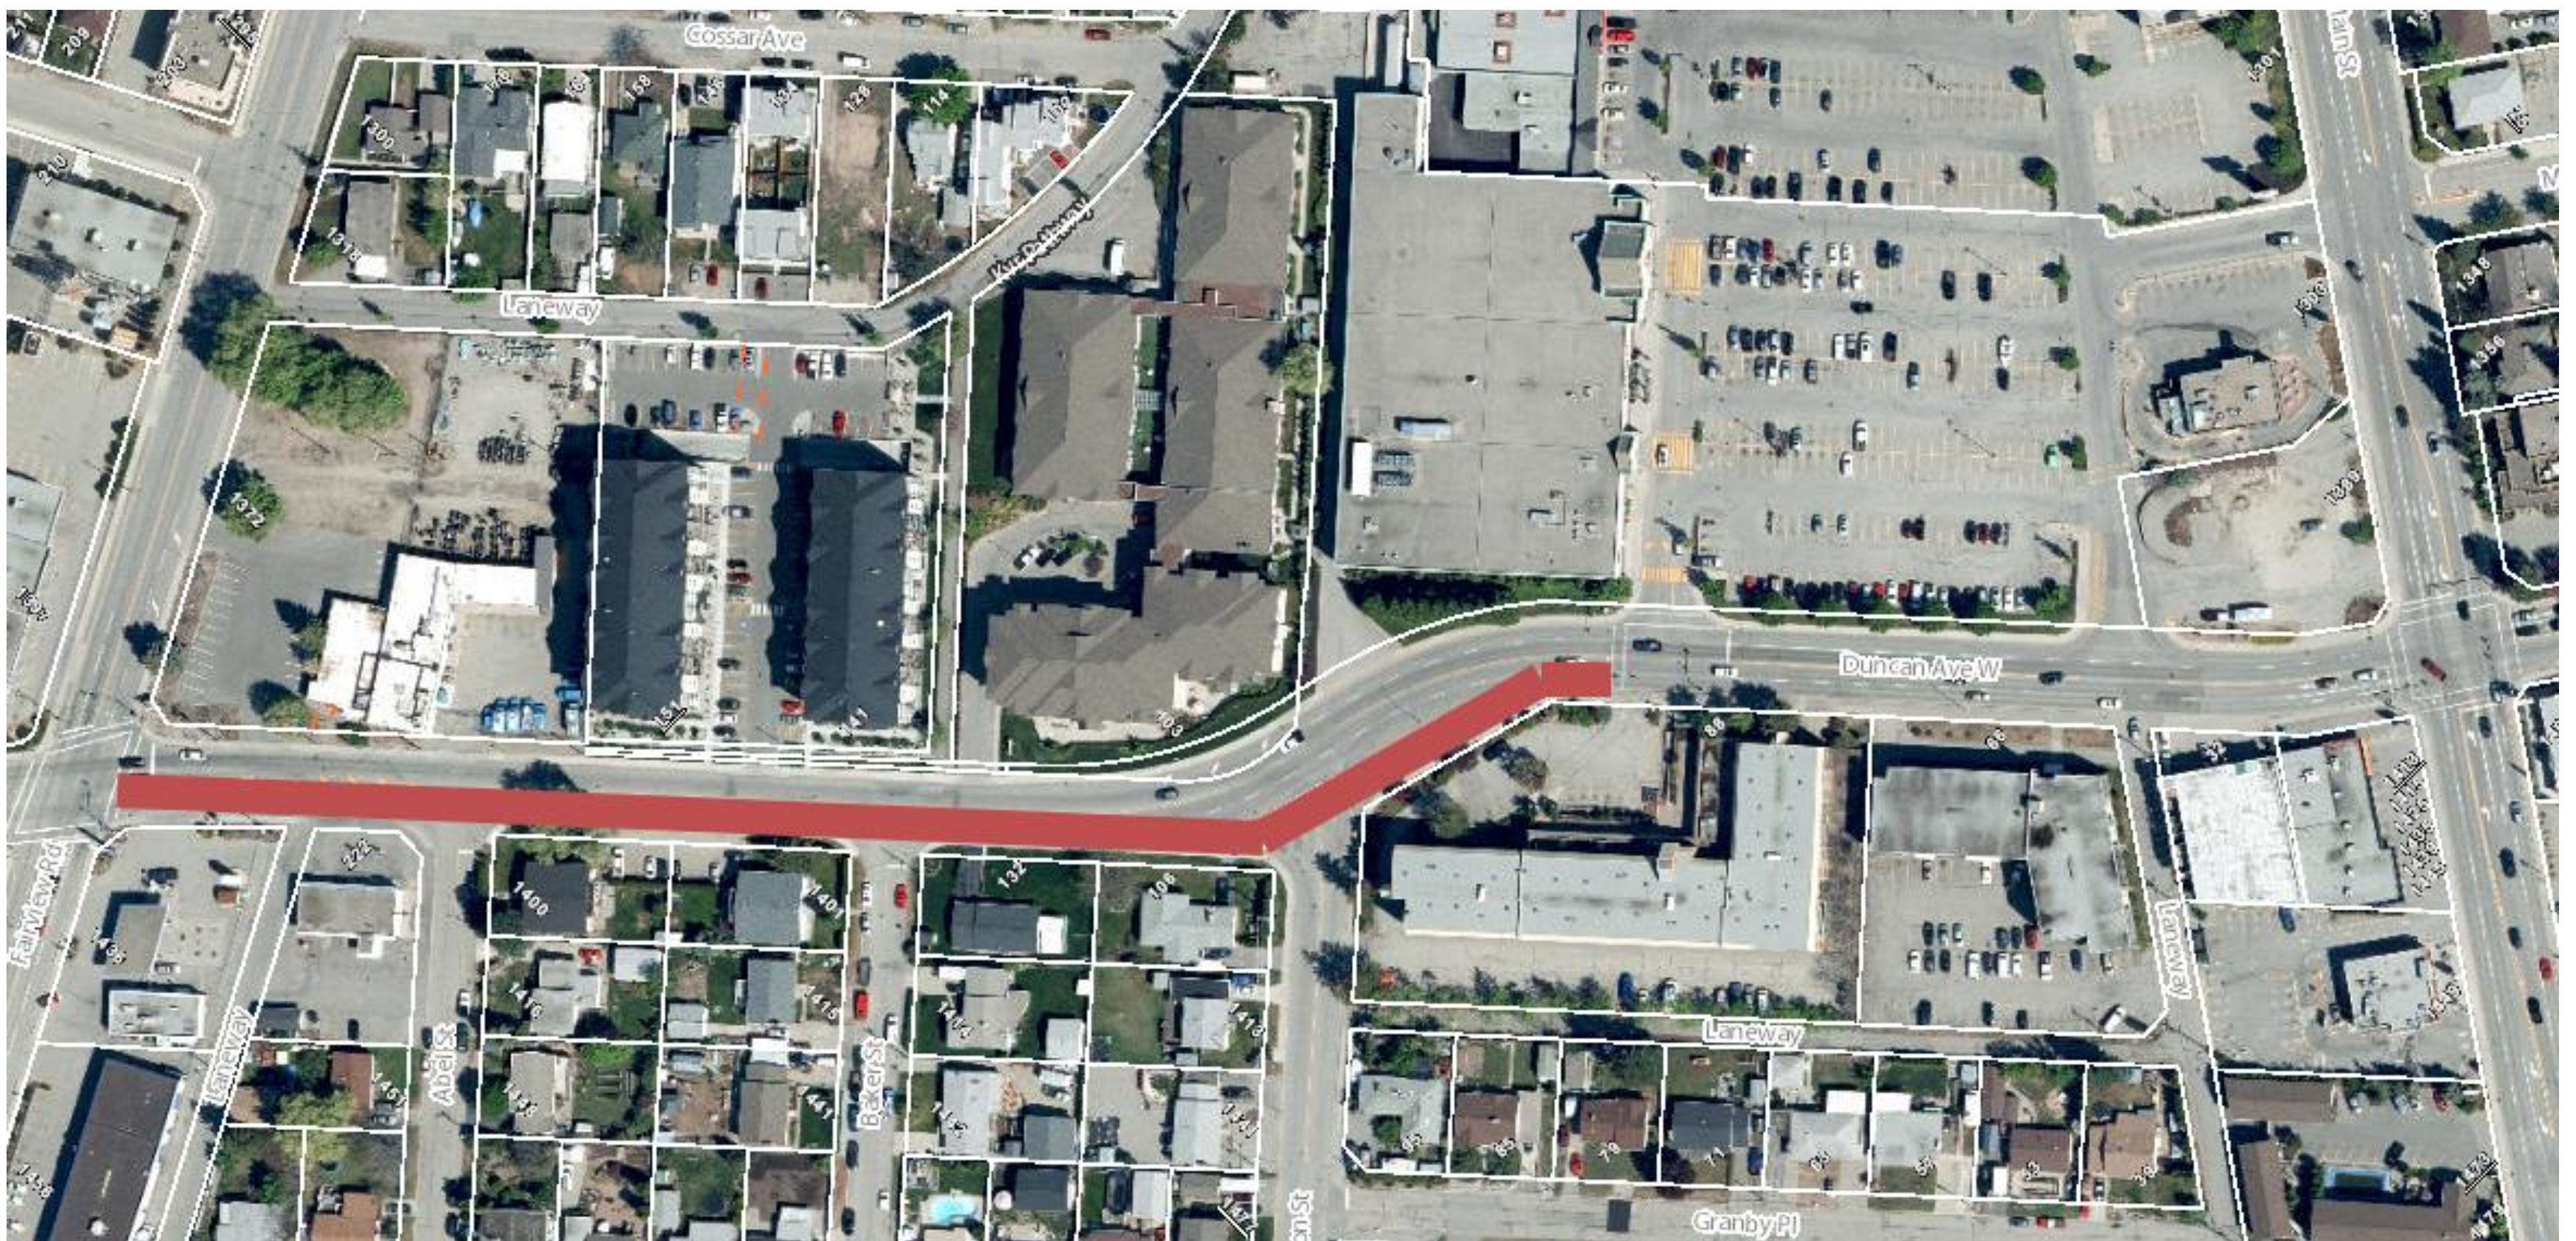

- Expect one-way traffic westbound only between Main Street and Fairview Road (eastbound lane will be closed from Fairview).
- Abel, Baker & Atkinson Streets will be closed at Duncan Avenue (reopened each evening).
- Traffic control people will assist pedestrians and vehicles through the work zone.
- Updates posted at penticton.ca/lake-to-lake

Hours of construction work

- Daily hours of work will be 7 a.m. to 5 p.m.
- There will be no work on Sundays or statutory holidays.
- Duncan Avenue, along with all side streets, will be open at the end of each working day.

What's happening?

- In addition to installing a protected bike lane, this project involves adding a new signalized intersection at Atkinson and Duncan as well as concrete work, installing catch basins, street lights and traffic signals.
- At Baker Street, a cyclist-activated signal and pedestrian crossing will allow for safe passage across Duncan Ave.

Thank you for your patience during construction!
