

## REQUEST FOR TENTING OUTSIDE SAFE TENT ZONE (Electrical and Irrigation Locates)

If staking is required during your event, please fill out the information below and submit with your site map for approval.

Structures may require a building permit (e.g. canopies, staging or tents larger than 55sq meters (592sq feet). All tents must be in conformance with British Columbia Building Code and meet NFP 96 Fire Suppression Regulations. All events that include tents are expected to follow requirements referred to in [Appendix 6A](#) – Temporary Structures. As the event organizer you are responsible for ensuring that the staking is done to the standards listed above.

List types structures that require staking	

**A detailed Site Map must be included with this form. Regardless of size, please outline the locations of all tents, structures and pegs/stakes.**

*I acknowledge that the City of Penticton has a no ground penetration without written approval for pegs outside the Safe Tent Zone policy. I will ensure all stakes are kept at a minimum of one meter away from all light standards, pedestals, utility or irrigation boxes, sprinklers, walkways, hard surfaces or any other existing permanent infrastructure. We have evaluated our set up and have determined that staking outside the Safe Tent Zone is the best and/or only way to secure the above structures.*
