## City provides resource to help determine sewer rate change

(Penticton, BC – December 18, 2018) – In an effort to assist residents in better understanding the impact of the upcoming sewer rate changes, the City of Penticton has created a worksheet that residents can use to estimate the difference between their 2018 and 2019 bill. Those wishing to access the worksheet can visit the City's website at:

<https://www.penticton.ca/EN/main/departments/finance/utility-accounts.html#Sewer>

"If you are curious to know the difference, but don't have access to a computer, staff at City Hall will be able to determine the difference for you," said Revenue Supervisor, Amber Coates.

Further questions can be directed to the Utilities Department by calling 250-490-2489 or via email at [utilities@penticton.ca](mailto:utilities@penticton.ca)
