Work on Kettle Valley Bridge set to begin

(Penticton, BC – December 6, 2019) – The public is advised that, weather dependent, the deck of the Kettle Valley Rail Bridge will be removed and replaced, beginning December 10.

The required work is projected to take four to six days to complete, with crews on site between the hours of 7:30am and 4pm. The bridge will remain available for crossing outside of work hours.

“The outcome of this project is improve bridge safety,” said Roads and Drainage Supervisor, Daniel Hutchings. “The City thanks the public for their patience while the project is carried out.”
